METRO TICKET GENERATING SYSTEM

Phase 1: Ideation Phase -- Empathize & Discover

Empathy Map Canvas

Date	**2 October 2026**
Team ID	
Project Name	**Metro Ticket Generating System in ServiceNow Using Service Catalog and Workflows**
Maximum Marks	**4 Marks**

Scope: Service Catalog / Service Portal, Scoped App (x_metro_ticket), Automated Pricing & QR Generation

Overview: An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes. For the Metro Ticket Generating System project, the map focuses on the commuter (passenger) who submits a ticket booking or smart card recharge request through the Service Catalog / Service Portal and follows the automated booking, QR-code generation, and validation process.

<table>
<tr><td>THINK AND FEEL
Wants the ticket booking or smart card recharge to be processed instantly.
Wants clear pricing, zone details, and ticket status information.
Wants digital QR-code passes to be reliably available on their mobile or portal dashboard.</td><td>HEAR
Ticket confirmation or status updates.
Fare calculation and deduction alerts.
Station operator validation and pass-scanning communication.</td></tr>
<tr><td>SEE
Service Catalog Record Producer request form.
Real-time booking and digital ticket status.
Station entry gates and operator workspace displays.</td><td>USER PROFILE
Metro Commuter / Passenger
Submits travel and booking details through the Service Portal / Service Catalog.</td></tr>
<tr><td>SAY AND DO
Selects origin station, destination station, ticket type, and travel class.
Submits the booking request and views the generated QR code payload.
Checks ticket progress and scans the digital pass at station entry gates.</td><td>PAIN POINTS
Long physical queues at manual counters.
Cash-only constraints and lack of flexible payment options.
Uncertainty about smart card balances and ticket validity.</td></tr>
<tr><td colspan="2">GAINS
Structured, self-service digital ticketing process.
Automated zone-based fare calculation and instant QR-code generation.
Timely notifications and seamless station entry.</td></tr>
</table>
