Customer Problem Statement Template: Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

PROBLEM STATEMENTS

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A commuter / daily passenger requesting a metro ticket or smart card top-up	Book my travel route and receive a digital QR-code pass instantly	I have to wait in long physical lines at station counters and rely entirely on cash	Manual ticketing involves repetitive counter processing and limited payment channels	Frustrated and rushed during peak morning commute times
PS-2	A station operator responsible for managing passenger flow and pass validation	Validate active tickets, process smart card recharges, and handle commuter inquiries	It can be difficult to track live bookings and verify pass statuses quickly	Manual token verification lacks a centralized digital workspace view	Overwhelmed by passenger volume and bottlenecks at station entry gates
